2	The product shows some use of technology
3	The product shows good and relevant use of technology
4	The product shows an advanced use of technology that is not unique .
5	The product shows an innovative and advanced use of technology

Impact

Score	Criteria
1	The product does not suggest any solution to any global issue
2	The product suggests an irrealistic or ineffective solution to a global issue
3	The solution suggested by the product is somewhat realistic and could be effective if more developed
4	The product suggests a realistic and somewhat effective solution to a global issue
5	The product suggests an innovative, realistic and effective solution to a global issue

Presentation

Score	Criteria
1	The presentation was not organized and unintelligible
2	The presentation was poorly organized and hard to understand
3	The presentation was somewhat organized and understandable
4	The presentation was organized and easy to understand
5	The presentation was structured and adapted to any public

Bonuses

These are extra criterions awarding **one point** each if the team fulfills the conditions

Bonus 1:

*The team used **technical language and specific terminology** during their presentation*

Bonus 2:

*The team has **explained or shown** how their solution could be put in place at a bigger scale (Regional, National, Global)*

Bonus 3:

*The product shows a **mix of multiple technologies** used. (Ex. Programming and Electronics)*

Your Favorite Team

Once you have graded every team in the exhibition you may choose one of the teams as your **favourite team**. It doesn't need to be the one with the best score or the most innovative project, it's simply the one you preferred and that you found the most interesting. They will be awarded an extra two points.
